

2003A Bond

Plaza de la Guerra Infrastructure \$1,000,000

PROJECT DESCRIPTION:

Funds for comprehensive design of needed infrastructure improvements in the Plaza. Improvements under consideration include hardscape replacement, parking elements, electrical system upgrades, new pedestrian amenities, redesign of landscaping, placement of a trash/recycling enclosure to serve the businesses adjacent to the Plaza, and a roadway and interior lawn design that would function in a safe manner both for automobiles and for pedestrians during large community events. Alterations would provide an improved visual and functional connection between Storke Placita, Plaza de la Guerra and Casa de la Guerra. Council reviewed preliminary concepts on November 14, 2006, and issued direction to abandon the “fix-its” specified in October 2004, in favor of a comprehensive Plaza design.

PROJECT MANAGER:

Marck Aguilar,
Redevelopment Specialist

NOTES:

The design firm of Campbell and Campbell is working on a the design including recommendations for construction phasing. The current account balance is approximately \$884,000.
